

# Distance Learning Programme

Bahauddin Zakariya University Multan

(Prospectus 2009)

# The University

Multan has always remained a centre of excellence in education. Hazrat Bahauddin Zakariya (1172 - 1262 A.D.), a Muslim religious scholar and saint, established a school of higher learning in theology in Multan; where scholars from all over the world came for studies and research. Multan has maintained its central position and centuries old cultural heritage and therefore suited ideally to become a center of learning. Thus the University of Multan was established in 1975 by an Act of the Punjab Legislative Assembly. To pay homage to the Great Saint, the name was changed from University of Multan to Bahauddin Zakariya University in 1979.

The University is located at a distance of 10 km from the city center. The main Campus is spread over 960 acres of land. The University has a fleet of 22 buses and 2 coaches which provides transport facilities to students and staff. The University started functioning in 1975 in rented buildings with 8 departments. Presently, it has more than 30 departments/institutes/colleges. Out of its 450 faculty members, 130 hold doctoral degrees and among its around 10,000 students, half are female.

The University offers a wide range of programs: M.A., M.Sc., MBA, M.Com., MCS, M.Phil, and Ph.D. Additionally, in recent years, the University has taken a lead in introducing 4-Year Undergraduate programs in Science, Commerce, Business, Pharmacy, Engineering, and English Literature and Linguistics. Various short-time courses and diplomas have become popular with the general public and are offered from time to time.

The University through different phases has made tremendous progress, but some recent developments are remarkable. To promote the activities of art and culture, Multan College of Arts was established in 2003. In order to cater to the needs of textile industry, which is a major industry of the area, the University College of Textile Engineering was established in 2004. The University has also established two sub-campuses at Sahiwal and D.G. Khan to provide education facility at the doorsteps of the people as part of the policy of the Government. Steps have been taken to establish the University's linkages with the community and Industry. There has been significant enhancement in students' enrollment. To ensure quality in the academia and research, Quality Enhancement Cell has been established. A large number of buildings are under construction. These buildings will provide better facilities to the students. The University has implemented semester system in almost all the departments and organizing international conferences and seminars has been a routine academic activity. A significant number of faculty members have been awarded post-doc research fellowships. The establishment of the Department of Siraiki, Institute of Biotechnology and Faculty of Veterinary Sciences are some recent developments.

In Addition to the above developments, Bahauddin Zakariya University is continuously striving to extend its efforts for the development of education in its jurisdictions. The Vice Chancellor of Bahauddin Zakariya University is keen to improve the quality of education of the external/private candidates appearing in different post graduate examinations. For this the Bahauddin Zakariya University is going to provide **Distance Learning facility** to the post graduate external/private candidates in its jurisdiction. At the pilot stage, the **Distance Learning facility** will be limited to some Humanities and Social Sciences subjects.

The Bahauddin Zakariya University is the fastest growing public university in Pakistan, and it will continue to play a vital role in the development of the country.

## **Administration (Bahauddin Zakariya University)**

The University Senate is the supreme governing/legislative Body of the University. The Syndicate and Academic Council are the executive and academic bodies of the University. The Governor of the Punjab is the Chancellor of the University, whereas the Minister for Education, Government of the Punjab is the Pro-Chancellor of the University. The Principal Executive and Academic Officer of the University is the Vice-Chancellor who is assisted by the Deans of the Faculties, Chairmen/Chairpersons of the Departments, Directors of the Institutes/Centre, Principals of the Constituent Colleges, Project Directors of the sub campuses (Sahiwal & D. G. Khan) and the four Principal Officers of the University - the Registrar, the Treasurer, the Controller of Examinations and the Project Director (civil works).

## **Introduction and Rationale of Distance Learning.**

In Pakistan, a large number of students appear in various examinations, as external/private candidates. Such students have no access to formal teaching and learning opportunities due to many constraints. They largely depend on get through guides and other similar kind of low quality material available in the market. Consequently, their knowledge remains substandard and their skills are incompatible with the needs of the market. This is the reason that compelled the worthy Vice Chancellor (**Prof. Dr. Muhammad Zafarullah**) of the university, to take the initiative to raise the standards of private students' training and education. Therefore distance-learning MA programme is being launched in five disciplines.

Initially, the system is being introduced in certain Humanities and Social Sciences disciplines at the Post-graduate level including **English, Economics, Pakistan Studies, Islamic Studies and Urdu**. On the success of pilot programme the system will be extended to other disciplines and later to all over the country and to the Middle Eastern countries.

The degrees, diplomas and certificates obtained through this system will be fully accredited and accepted everywhere as other degrees and certificates of Bahauddin Zakariya University. The facilities for providing teaching materials and guidance and other required and relevant services will be made available by Bahauddin Zakariya University through an effective and efficient rework of these services. An informal system including some structured, some semi-structured and some unstructured components will provide opportunities for learning with a flexible scheduling.

Distance learning students shall be admitted at the start of academic session i.e. August 2009 like regular students. No admission after the cut off date will be permitted. The project will be completed in 24 months time period. The students will be prepared year wise M.A. part I (1<sup>st</sup> year) and M.A. part II (2<sup>nd</sup> year). Each year, 9 months for preparation and the remaining time is in the establishment. Existing faculty as well as the examination department will coordinate with the directorate for the assessment of enrolled students.

## **Objectives**

- The major purpose of providing opportunities of distance learning under the Bahauddin Zakariya University Multan is to enrich the experience of those students who appear in examination as external/private candidates, and, have no access to formal teaching-learning environment.

- The main thrust and the spirit of distance learning system will be maximum accessibility and flexibility as the students will have better opportunities for learning without affecting their everyday routine, work and job responsibilities and similar other commitments.
- The guidance may be provided to these students in the field of enhancement of knowledge, improvement of communication skills, preparation of examination etc.

### **The Delivery Modes:**

The delivery modes for the distance learning will be:

1. Course materials will be suggested by the Coordinators/ Tutors.

### Department of Urdu

The Department was established concurrently with the University in 1975, when post-graduate classes of M.A Urdu in Government College, Multan were shifted to the University. The University Department thus not only inherited the class but also the bright tradition of the parent Department. The Department offers facilities for M.A., M.Phil and Ph.D. programs. Regular M.Phil Program started from the academic session 1992-93. Till last year, sixty three students obtained M.Phil degrees. Details regarding M.Phil and Ph.D. programs may be obtained from the office of the Department. In 2005, a Persian Certificate Course was started. In this program, 40 students got admission. All of them successfully completed the course.

Most of the graduates of this Department are serving as College and University teachers in Pakistan. Moreover, a significant number of graduates are media. Three of its prominent graduates, Dr Aslam Adeeb, Dr. Farooq Mashhadi and Dr. Saleem Haidrani have earned Quaid-e-Azam scholarship and obtained Ph.D. degrees from the U.K.
